

## **NVS Technologies AG**

### **Release Note July 3d, 2015 RTK Firmware Revision 0024**

- Fixed bug in wrong GPS/UTC synchronization related to the latest UTC correction on July 1st, 2015
- NMEA and RTCM simultaneous communication is now supported at the same port (useful feature for VRS)
- Added support of List of Known Base Stations (NMEA \$PNVGIDL message added)
- NMEA \$PNVGBLS (Base-line status) message added
- NMEA \$PNVGRZB and \$PNVGRTK messages extended
- NMEA GGA message corrected (HDOP and used satellites)

- Moving-base mode is supported (NV08C-RTK-A device only)

## **Compatibility**

RTK Firmware Revision 0024 is compatible with NV08C-RTK and NV08C-RTK-A devices.
